VOL. LXXX—NO. 24. WILMINGTON TUESDAY, OCTOBER 23, 1906. WHOLE NUMBER 12114.

Library of Congress

OUTLINES.

The country from the Rocky mountains to the Missouri River is in the grasp of a blizzard, snow drifts of nine feet being reported from Colorado while six inches of snow fell in Minnesota; the temperature at Colorado points is below zero——A terrific West Indian cyclone did fearful damage in several towns of Honduras, October 12th, playing havoc with shipping and the banana plantations; a tidal wave swept everything before it—There was a lively speaking tour of New York last night by Hearst and Hughes; the Republican chairman has sent out warnings over the State that Republicans must not be too over-confident—Complaint was filed by the Denver the Interstate Commerce Commission yesterday that several western railroads are discriminating in freight rates; the complaint involves the Standard Oil Company——Rev. Tom Dixon's play "The Clansman" came very nearly creating a riot in Philadelphia where it was presented last night; the negroes protested against its presentation and a riot call brought a detachment of police who dispersed a large crowd of angry negroes in front of the theatre——In the Federal Court in New York yesterday Captain George Boynton pleaded guilty and was sentenced to a term of six months in the penitentiary for being a party to a plan to counterfeit Venezuelan silver coin in order to finance a revolution——Secretary Shaw has decided to discontinue treasury deposits in New York to encourage the importation of gold, and also has a plan by which the National Banks can add $18,000,000 to the circulation——A steamer has been blown up by a mine and 200 lives lost, near Vladivostok——New York markets: Money on call firm 3 to 7 per cent., ruling rate 6, closing bid 3, offered at 5; spot cotton 25 points advance, closing quiet at 11.25; flour moderately active and a shade lower; wheat steady, No. 2 red, 78 1-2 elevator; corn steady, No. 2, 54 1-2 elevator; oats steady, mixed 38; turpentine firm.

It is a hero who takes chances in a sub-marine boat.

Wonderful country. Snowdrifts nine feet deep in Colorado and temperature below zero, while it is practically Summer weather in Wilmington.

Uncle Joe Cannon says wages have advanced more rapidly than the cost of living. He must men the wages of sin, if he wants wage earners to agree with him.

President Roosevelt decided early in the campaign that he would nake no political speeches. This saved him from answering the distress call from his party in Pennsylvania where they have just erected a $4,000,000 capital for $13,000,000.

Says the Washington Post: "It might be interesting to have a joint debate between Secretary Root and Poultney Bigelow, each of whom spent forty-eight hours on the Isthmus of Panama, one finding that the canal is all right and the other that it is all wrong." Each took a peep at the canal and saw only what he wanted to see.

This is a day of revolutions, when even an old saying gets knocked higher than a kite. They used to say "talk's cheap," but the suit of a telephone company in Baltimore against a young lady for nearly $1,000 for talking to her sweetheart in Richmond shows that even talk comes high while all other prices have advanced during "Republican prosperity."

It is said some men are running on the Republican tickets in some North Carolina counties, claiming that they are Democrats as far as State and county politics is concerned, but nationally they are not. We don't suppose that a voter with brains enough to make a frying noise in a skillet will vote for such candidates in view of the fact that "wolves in sheep's clothing" are still lurking in the woods.

Says Colonel Bryan's Commoner: "Is the Democratic party dying?' plaintively queries the New York World in the same issue where in it booms Grover Cleveland for Senator from New Jersey. The world seems awfully anxious to furnish the affirmative answer to its query." It seems that Colonel Bryan is only satisfied with the Sage of Princeton when he is either fishing or duck hunting.

RESULT OF STORM

Frying Pan Lightship Broken from Her Anchorage During Storm Going Adrift.

TOWED INTO CHARLESTON

Many Visitors to Wrightsville and Southport Sunday—Damage to Rice Crops Down River—News Nots.

In shipping circles yesterday there were no reports of marine disasters as the result of the severe northeast storm which prevailed along this coast Saturday, though it is believed in well informed circles that there must have been great damage at sea and that reports will begin to reach here later. The severity of the storm at sea may be judged from the fact that Frying Pan Lightship, just off this coast, broke loose from her anchorage and went adrift during the blow, having lost her mushroom anchor and about ninety feet of cable. The fact of the lightship being off her station was first reported by Capt. Larsen, of the Norwegian steamer Atlas, which arrived yesterday for coal. The Atlas is laden with oil cake from New Orleans to Dunkirk and put in here for the needed supplies. Capt. Larsen knew no more than that the ship was off her station, but subsequently a telegram was received by the Star stating that after breaking loose from her mooring the ship set sail and was driven southward of Charleston. She beat back to the entrance to that port and was towed in there by the Buoy Tender Wistaria yesterday. She was not damaged. The anchor and cable are being replaced at Castle Pinckney and the ship will be towed back to her anchorage by the Wistaria.

The damage at Wrightsville Beach is of no consequence and cars were being operated there over the trestle Sunday. Large crowds went down and saw the effect of the wind and wave. Another large crowd went down to Southport on the steamer Wilmington, leaving at 9:30 A. M., and returning at 5 in the afternoon. The wharves along the water front there were partially carried away and the government breakwaters which were being repaired from the last storm were damaged to some extent. None of the shipping in the harbor suffered to any great degree.

Great damage was done to the rice which had been cut and shocked in the fields down the river, especially at Orton and Kendall plantations. The tide was very high and came at just the season of the year when the growers were least in a position to save the harvested crop.

The only arrival yesterday was the British steamer Amphitrite, 1,475 tons, Capt. James, from Hamburg. She brought a cargo of German salt for the V.-C. Company. The schooner Fannie Prescott cleared yesterday for Port-au-Prince, Hayti, with cargo of lumber from S. & W. H. Northrop; vessel by C. D. Maffit. The Clyde Liner Navahoe, which was delayed by the storm Saturday afternoon, sailed Sunday morning.

The wreck of the schooner Dewell, which had been towed to an anchorage off the Cape Fear bar by the tug Blanche just after the previous storm, broke loose during the Saturday hurricane and is going to pieces. She is laden with lumber and is overturntd. Wreckers had found it impossible to do anything with the derelict and a government boat was off there last week for the purpose of blowing her up until it was ascertained that she was the property of the Wilmington, Southport and Little River Transportation Co. It is doubtful now if any of the vessel or cargo can be saved except that part of it which drifts ashore. The derelict of the schooner R. D. Bibber, which was further down the coast has also been destroyed according to reports.

The Revenue Cutter Seminole was due in port yesterday, but she probably encountered the storm further up the coast and put in somewhere for harbor.

—The steamer A. J. Johnson will resume her runs on Black River today, clearing this afternoon at 2 o'clock. The boat has been tied up several days awaiting depth of water in the river.

SENSATION IN PULPIT

Raleigh Preacher Inveighs Against All Dope and Cigarettes. New Banks for Columbus and Bladen Counties—Notes.

(Special Star Correspondence.)

Raleigh, N. C., Oct. 22.—The most sensational sermon people of Raleigh have heard in a great while was that last night at Tabernacle Baptist Church by Rev. J. W. Ham in his farewell sermon as assistant pastor. His theme was "The Trinity of Man the Trinity of Dope." The trinity of man was represented to be his mental, moral and physical natures, and the trinity of dope was morphine, cocaine and cigarettes. The devil was represented as tempting men and women to the use of dope. He declared that one part of Raleigh was so given over to the use of laudanum as dope that even the hens' nests were made of laudanum boxes. He used the term "beyond the capital" to indicate the section of the city to which he referred and the congregation inferred from this that he meant West Raleigh, one of the best sections of the city. He charged that cocaine is being used here generally by men and women, who are living too fast and resort to dope to bear up under the strain of social and business life. He declared that he often spotted people hurrying down town mornings to get dope.

Referring to the use of cigarettes he charged that if a man would smoke them for ten years they would completely undermine his mental, moral and physical natures so that he would steal, lie, commit adultery and murder. He would not say that every man who used cigarettes would do these things, but his nature would be so undermined that he would do these things if it served his purpose. He said he had been addicted to both dope and cigarettes, but had completely rid himself of the evil habits and had been "going up hill ever since," He held up the Turks as an illustration of the evil effect of cigarettes on national life, it having reduced them to a people listless, slothful and untrustworthy. He urged that North Carolina should follow the example of Georgia and other States in prohibiting by law the use and sale of cigarettes.

A charter was issued to-day for the Bank of Tabor, Columbus county. The capital is $5,000, by C. C. Pridgen, J. W. Floyd, Matt Heyer, of Wilmington, and others.

Major B. F. Dixon, State Auditor, left this morning for the eastern part of the State for campaign work in Sampson, Pender, Duplin, Columbus, Robeson, Scotland and Union counties. He will close his work with a speech at Shelby on Monday before the election.

Charters were issued to-day for the Bank of Ramseur; $50,000 capital authorized and $10,000 subscribed, by W. S. Watkins, E. P. Whiton and others. Also the Bank of Bladen at Clarkton; capital $15,000, by G. H. Currie, O. L. Clark and others.

ALL-DAY PRAYER SERVICE.

Revival Services at First Baptist Church—Announcements.

Dr. W. W. Hamilton, the evangelist, and others who are working daily to make the revival at the First Baptist church bear a plenteous harvest, have arranged for an all-day prayer meeting to-morrow. From 6 A. M. until midnight the doors of the church will be open and to all an invitation is given to come in at any time and join in the worship. There will be no restrictions on anyone. One or more of the ministers will be in the church at all times during the day. From 6 to 7 o'clock services will be led by a well-known Christian business man. From 10 to 11 o'clock Mr. Wakefield will have charge. At noon Dr. Hamilton will preach especially to men. Women, however, are invited to this service. In the afternoon from 4 to 5 o'clock Dr. Hale, pastor of the church, will lead in a meeting. All places of business, including the saloons, will be requested to close during the noon hour so as to permit the employes as well as the proprietors to attend the meeting. During this hour the Christian people of the city are urged to pray for the men who are yet unsaved. Dr. Hamilton will preach again at 7:30 o'clock.

All the services Sunday were abundantly fruitful. During the day there were 22 accessions to the church, making a total of sixty-nine since the special meetings began.

Thursday night Dr. Hamilton will preach a sermon to the Pythians of the city. He is a member of the Knights of Pythias and has always taken a keen interest in his fellow Pythians.

TO SAVE MUTINEERS

Dr. Carmichael, of Wilmington, Called on President in Behalf of Prisoners.

SAVE THEM FROM DEATH

Accompanied by Fredericksburg Minister—Attorneys Have Not Given Up Hope and are Working Unceasingly for their Clients.

(By Associated Press.)

Washington, Oct. 22.—Revs. Drs. H. H. Barber, of Fredericksburg, Va., and James Carmichael, of Wilmington, N. C. saw the President to-day in behalf of Robert Sawyer and Arthur Adams the North Carolina negroes who are under sentence to be hanged November 1 for murder and mutiny on the high seas on the schooner Harry A. Berwind last October. Last week the President refused to commute their sentences. After leaving the White House the two reverend gentlemen went to the Department of Justice where Attorney General Moody listened to the statements made in behalf of the two men for a commutation of the sentences.

It is now known positively that the attorneys for the prisoners and a great many others who are convinced of the innocence of the men are moving heaven and earth in an effort to save the condemned mutineers from the gallows to which they will surely go on Friday week unless in some way the President of the United States is prevailed upon to reconsider his purpose not to commute their sentences. A large number of affidavits are being made before a notary public and are being gotten in shape to be taken to Washington for a final appeal to the President. The attorneys are giving absolutely nothing out for publication, but it is believed that one of them will leave in a day or two for Washington to make one final effort in behalf of the negroes. The above telegram is the first authoritive information that the public has had as to the course the effort is taking. Rev. E. R. Bennett, rector of St. Mark's Episcopal church, colored, has been North the past week attending a conference of prominent members of his church and it is thought that on his return South he has also called on the President in behalf of the prisoners. He knows perhaps more than any other living person the true inwardness of the case by his long contact with the men in an advisory capacity and what he says is expected to have great weight with Mr. Roosevelt.

Married in This City.

At the Catholic Church in this city Sunday, Miss Helen Gyer, of Sheboygen, Mich., and Mr. Garfield T. Myer, of Bolton N. C., were quietly married in the presence of a few friends. Mr. Myer is connected with the Waccamaw Land and Lumber Co., at Bolton, and his bride an attractive young woman of Michigan, came all the way to North Carolina to meet the man she loved, it having been imposible for him to leave his business here to go to Michigan. Mr. and Mrs. Myer were guests at The Orton and left yesterday for Bolton, their future home.

Died of His Injuries.

George McKoy, the young negro who was injured on the A. C. L. yards in this city Saturday by slipping on a banana peel between two cars which he was attempting to couple while the train was in motion, died Sunday at the hospital. His home in this city was 802 Brunswick street, but the remains were sent to his former home at Clarkton for interment.

Water Wagon Driver Arrested.

The water wagon man is again in trouble. This time he was not drunk; neither did he take a tumble, as was the case with the man on the big sprinkler down on Front street a few weeks ago. It was at Third and Princess streets last night about 7:30 o'clock. John DeBois was the driver and he had some misunderstanding with a pair of very contrary mules. DeBois waxed profuse with words against the peace and dignity of the State. Officer A. D. Woolard happened to be passing about the time and felt that the circumstances warranted his arresting the driver and he did so. DeBois will have a hearing before the Mayor at noon to-day.

This week double trading stamps at Polvogt's. **

HOTEL IMPROVEMENT

The Orton and Its New Annex, The Purcell, Being Greatly Improved Install Heating, Lighting, Laundry and Power Plant.

Few people in Wilmington now realize that Wilmington has in The Orton and The Purcell, both under the management of Mr. Jos. H. Hinton, two of the most modern and most handsomly equipped hotels in the State, the two having a capacity of 175 sleeping rooms. The improvements at The Orton are now nearing completion and recent visitors to the house have been struck with the beauty and convenience that has been added to this well known hostelry. The renovation and refurnishing of the Purcell will be completed this week and the visitor there is likewise impressed with tht accommodations offered the public. A competent man to manage the house has been secured by Mr. Hinton in the person of Mr. J. A. Boyett, for the past two seasons with the Seashore, at Wrightsville Beach, and the place will be run on the European plan for both permanent and transient guests. A limited number of rooms with all conveniences are offered with all the comforts of a hotel at a nominal rental by week or month to home patrons. Office, parlors and rooms to the number of fifty have been nicely fitted up in The Purcell and the house presents the same attractive appearance that it did the first day it was opened. New carpets, new curtains, new draperies, new gas and electric light fixtures, new paper on the walls and much repair work has made this effect possible and the house promises to do well from the start. It will be run as an annex to The Orton in one respect, yet those who patronize the hotel will be free to get their meals wherever they desire.

An improvement in contemplation at The Orton is the installation of a private electric lighting, laundry, heating and power plant all under the one management. Mr. Hinton owns as part of the Orton property, the building on Princess street, next below the Wilmington Stamp Works and abutting on the hotel property proper just in the rear. In this Mr. Hinton is contemplating the laundry plant and will decide within the next few days what he will do. He returned Saturday from a visit to Greensboro, Raleigh and other cities, accompanied by his architect and the visit was for the purpose of inspecting similar plants in those cities, notably that at the Stae Normal and Industrial College, which maintain its own plant for the purposes named. The heat, lights, laundry and power for the elevator of the hotel will be furnished from the one boiler and engine and it is easily seen why such an arrangement would be an economical one for the house. Mr. Hinton will decide within the next few days what he will do in regard to the installation of the plant which would cost several thousand dollars.

A POPULAR CONDUCTOR.

Capt. J. D. Bowen Who Was Injured in Late Hamlet Wreck.

The Raleigh News and Observer of Sunday has the following:

"Capt. J. D. Bowen and family, of Wilmington, have been spending several days in the city. Captain Bowen was conductor on the Seaboard passenger train between Wilmington and Charlotte for a year or two prior to the terrible wreck near Hamlet on Sunday night, July 22nd, last. He was in charge of the passenger train that was wrecked and was so seriously injured that he was confined to his room for 45 days afterward. He is still unable to walk a step without crutches, but is getting along well considering the severity of his injuries. He is he same jovial and good natured fellow that he ever was. His many friends—all who ever rode with him are his freinds—will be glad when he is able to return to his duties.

"There is hardly a more popular conductor in the State and his kind and congenial face has been missed by many."

Bit Her Lip in Two.

Kate Smith, colored, was arrested last night by Officer C. H. Tatum for disorderly conduct on Eighth, between Nun and Church streets. Her daughter had just had a run-in with her and in the melee which followed the mother had her lip bit in two. Officer Tatum came along while the maternal wrath was at its height and arrested her for disorderly conduct. The daughter had "skiddooed."

Go to Polvogt's this week, they are giving double trading stamps on cash purchases. **

POLITICAL ISSUES

Hon. Locke Craig, of Asheville Heard by Enthusiastic Audience Last Night.

STRONG FORCIBLE ARGUMEN

Always Pleased to Speak to New Hanover People—He Preached Democratic Doctrine With Vigor and Effect.

Hon. Locke Craig, Democracy's able exponent in the West, addressed a goodly number of voters of New Hanover in the Court House last night and made a decidedly favorable impression not only personally but for the great cause he represents. Mr. Craig is no stranger to Wilmington nor to its people. He was heard here during the dark days before ninety-eight and he has since been heard here when times were more peaceful. His last appearance was when he met Judge Pritchard, then State chairman of the Republicans, in joint debate in the opera house about three years ago. He was popular then. He is popular now. His speech last night demonstrated that he has lost none of his old-time vigor and that his words of eloquence and presentation of cold facts are just as potent now as they were then. Mr. Craig came to Wilmington by appointment of State Chairman Simmons and was given a very enthusiastic greeting. His speech was short but strong and full of the logic and facts that carry conviction.

The meeting was called to order by County Chairman William J. Bellamy at 7:30 o'clock, a little earlier than usual for such meetings in order to give working men who retire early a chance to hear the distinguished visitior. Mr. Bellamy's introduction of the speaker was brief, but very pleasing. Mr. Craig began by thanking Mr. Bellamy for his words of kindness and saying that preaching Democracy to New Hanover was like talking war to Hannibal. He rejoiced however, in the opportunity of appearing before a Wilmington audience again for he felt that he was among the men, who in years past had been of great service to the State. He referred particularly to the constitutional amendment and by implication paid a high tribute to Mr. George Rountree as the leading author of that great "declaration of independence." His remarks to this effect were warmly applauded.

Mr. Craig said that the campaign was a very quiet one and explained the seeming indifference of the people as due to the fact that the State was safe in the Democratic column. He exhorted, however, to eternal vigilance as the price of liberty and said that the whole State was casting its eyes seaward to see that the City of Wilmington took not one backward step in its majority for the ticket.

Going into National issues Mr. Craig drew a beautiful word picture of this great industrial age and told of the Almighty struggle for the dollar, deprecating to some extent this tendency of the times. It seemed to be the cry of the "prosperity shouters" to make "money young man, make money honestly, if you can; if not young man, make money." There were things that were higher and nobler and a contrast between the slogans of the two dominant parties was drawn, showing that Democracy stood for the man above material things—equal rights to all men and special privileges to none.

The speaker's reduction of the Republican prosperity issue to an absurdity was great. Panics of former years, that of 1873 and 1893, were shown to have occurred while Republicans were in power and Republican laws had been on the books for years. It was all bosh to attribute prosperity to one party or another. It was like the story of the old woman way up in the mountains who threw a flint rock in the hearth at home to keep hawks away from the chickens. The old woman was sought to be convinced that there was no virtue in such a superstition. She replied that she knew there was something in it, for before she put the flint in the hearth, the hawks were eating up all her chickens and since it had been there she had not lost a single chicken. There was as much absurdity in that conclusion as there is in the conclusion that because the Republicans are in power we have prosperity. In 1897 when the lamented McKinley came into power, there was talk of his being a forerunner of

For Constable of Wilmington Township—W. B. Savage.

NO LARGE CITIES IN NORTH CAROLINA.

The New York Sun has been struck with the fact that there are really no large cities in North Carolina. The article of the Sun was in a deprecating tone, and our New York contemporary marvels at it. Says the Sun:

"North Carolina is one of the thirteen original States. By the first national census, taken in 1790, it stood third in population, being exceeded only by Virginia and Pennsylvania, and New York occupying fifth place. In 1830 North Carolina was fifth among the 27 States in population, and in 1850, when the number of States had risen to 33, North Carolina had tenth place. But notwithstanding its early settlement and the steady increase of population which there has been since, by a peculiarity which makes the Tar Heel exceptional among American States, North Carolina has no cities and appears to be unable to develop any city of the first-class, regardless of the great improvement in its railroad connections and recent development of its factory interests.

"By the census of ten (1900.) years ago, the total population of Wilmington, one of the oldest cities in the country, was 20,000; of Raleigh, the capital, 13,000, and Asheville a popular resort for Northern tourists, 10,000. During the past ten years North Carolina has enjoyed a considerable share of the great prosperity, and in two particulars it has had some unusual advantages for the development of its urban population."

The Sun is rather surprised that there are no very populous centers in North Carolina, considering the fact that the State has made marvelous progress industrially, and has been the scene of extensive railroad development. It adds this to its comment on the subject:

"A population of 13,000 for the capital of an important American State, which is its railroad centre as well, is most certainly unsatisfactory, and it need therefore, be no occasion for surprise that many North Carolina persons should have come to the opinion that whatever other political destiny may be in store for the Tar Heel State, it will never rank high for its large cities."

The Norfolk Landmark comes to the defense of North Carolina with the following:

"It may be a blessing for a State not to rank high for its great cities. All who are familiar with North Carolina know that it ranks high in the number of its flourishing small cities—places like Charlotte, Greensboro, Durham, Elizabeth City, Washington. Is it not better for a State to have its urban population distributed widely in a constellation of small and lively cities than to have a few great centres of population overshadowing the smaller municipalities? A large proportion of the population of the great cities of the North and the East consists of the hordes of undesirable immigrants who prefer swarming in city tenements to living comfortably and healthfully in the country. North Carolina like most of the other Southern States, has been spared this affliction."

The Charlotte Observer says the remark of the Landmark is "as true as it is kind," and The Star quite agrees with its esteemed Charlotte contemporary, although the esteemed Landmark might have named Wilmington in the list of its flourishing North Carolina cities. We would like to see large cities in North Carolina, but we might take comfort from the fact that we have no top-heavy place in North Carolina and that no one place either prospers or grows at the expense of others or to the disadvantage of the country. The growth of North Carolina at present is widely diffused over a great area, and it is gratifying that numbers of cities are growing more rapidly than at anytime in their history. The Wilmington of to-day is not to be mentioned in the same class with the Wilmington of 1900 when the last census was taken. The appearance of the city has almost been metamorphosed by the erection of handsome buildings and improved streets and there has been a marked increase in its population and business. Wilmington now stands as the fourth cotton port in America as to receipts and exports and its percentage of growth in that respect is larger than any other Southern port. There has also been a large increase in all lines of business, and a conservative estimate places Wilmington's population at 32,000 at the present time within the same boundaries in which the enumeration of the census takers was made in 1900. Naturally the commerce of the port of Wilmington has increased in proportion to its cotton trade, and our city never had a brighter future.

The Charlotte Observer, in this connection, speaks of the growth of Charlotte, and claims that "to-day Charlotte, including suburbs, has in the neighborhood of 40,000 people and is growing rapidly." North Carolina cities are coming up now and the other parts of the country ought to watch us grow.

Going back to the New York Sun's references to the slow growth of cities in North Carolina, it might be said that there is no telling how much the civil war and the subsequent reconstruction period retarded this country. We will never know.

FROM NEWPORT NEWS TO HAVANA.

The order of Secretary of War Taft on Friday establishing a regular army transport service from Newport News to Havana, shows the importance of that splendid Southern port. The decision to establish that service was not arrived at until the advantages of other ports were considered. The Quartermaster's report upon which the Secretary acted, says Newport News is the best point for such a service owing to its water facilities and the Government's free use of the piers there. So the Sumner will make two trips per month in the new service from Newport News, which will also be the home port hereafter of the transports Meade, Kilpatrick and McClellan when they return to America.

CURRENT COMMENT.

—Atlanta bankers think real cotton is better security for loans than pipe-dreams like Segal's or a large part of the security the big banks accept.—Baltimore Sun.

—Those Pennsylvania grafters point with pride to the fact that President Roosevelt's dedicatory speech contained nothing denunciatory of graft.—Bryan's Commoner.

—"Boss" Murphy, of New York, has admitted to a grand jury that he spoke without reference to facts when he asserted that members of the judiciary ticket had paid for their indorsements. He probably is astonished that the grand jury does not appreciate the difference between truth and politics.—Washington Post.

—Almost as much space is required to print the names of the deserters from the Democratic party in the Republican papers as is demanded in the Democratic papers for the list of Republican deserters.—Washington Post.

—An Indian chieftain as a railroad president is a rare thing, but that is what Pleasant Porter, chief of Creeks, is. His railroad is the Indian Central. It filed its charter at Guthdie. It is capitalized at $15,000,000 and contemplates the construction of 460 miles of railroad in Indian Territory and Oklahoma within the next two years. The road begins at Ponca City and runs southeast to Paris, Tex., with a branch line running from the Red River northeast to Oklahoma City.—Kansas City tar.

—The "claim everything" bluff tried by the Hughes managers for a few days has become quickly the worse for wear, simply because concealment of the actual conditions was impossible. The people of the State have been able to judge for themselves the quality of the reception accorded the Republican candidate. It is now well known that apprehension is in the hearts of the leaders, that anxiety pervades their councils. Prominent newspapers supporting Mr. Hughes criticise the management of the campaign, and dispute the policy of misrepresenting the situation.—Buffalo Courier (Dem.)

TWINKLINGS.

Teacher—"Johnny, if I gave you 5 cents and your brother 10 cents, what would that make?" Johnny—Blind to Figures.—Stella—She is outrageously padded. Bella—Well, you see her fiance is a bank director and never investigates figures.—New York Sun.

A Man Is Known by the Company He Keeps.—Bank Teller—I have no doubt you are Billyuns, the ice magnate, but you must be identified. Can't you bring in some friend to—Billyuns—I have no friends. Bank Teller—It's all right. You're identified.—Life.

A Plain Cook Also.—"The people I lived wid before, ma'am," said the new cook, "wuz very plain." "Well," asked her new employer, "are we not plain here?" "Yes, ma'am, but in a different way. Th' others wuz plain in their way o' livin', not in their looks, ma'am."—Philadelphia Ledger.

Unflattering.—"Wonder why it is so easy for a fellow to get engaged at a summer resort." "Ever look into one of those summer hotel mirrors?" "Yes." "Well, when a girl sees herself in one of those she's ready to accept almost anybody."—Cleveland Leader.

A Movement On Foot.—"Whew! it's getting late, boys," said Peckham, at the club. "I'll have to be going. My wife expects me home before midnight." "Oh! she's a fighter, eh?" sneered Lushman; "afraid she'd go for you if you stayed too late?" "No; I'm afraid she'd come for me."—Philadelphia Press.

"Well," said he, anxious to patch up their quarrel of yesterday, "aren't you curious to know what's in this package?"

"Not very," replied the still belligerent wife, indifferently.

"Well, it's something for the one I love best in all the world."

"Ah! I suppose it's those suspenders you said you needed."—Catholic Standard and Times.

ANOTHER WONDER OF SCIENCE

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Sold in Wilmington by Robt. R. Bellamy and other Leading .. Druggists.

The Effect of a Purpose

[Original.]

"There are two kinds of evidence in criminal law, direct and circumstantial. I would rather take my chances of acquittal in a case where I had been seen to commit the crime than in a strong case against me of circumstantial evidence. In the former there is always a plea of emotional insanity, while in the latter the prosecution has only to put the evidence together, true or false, to prove the accused guilty.

"Hugh Bassett was convicted of murder on circumstantial evidence, but since it was proved that he had been persecuted to frenzy by the murdered man he was not hanged, he was imprisoned for life. This persecution, though it saved him from the death penalty, was the main cause of his conviction. His persecutor was murdered and who could have murdered him but the man he had persecuted? This is what twelve good and true men decided, and decided wrong. Ten years after the conviction a hardened criminal on his death bed confessed to a priest that he and not Bassett had committed the murder.

"Bassett, torn away from his wife and children to be taken to prison for a crime of which he was innocent, had but one thought—to escape if his escape should cost him his life. He was an ingenious man, quick to see an advantage another would not see.

"But several years passed before he saw any avenue of escape whatever and then a very desperate chance. He had been graduated at a scientific school and from there had taken a position with manufacturers of machinery. In prison the officials were glad to avail themselves of his services in the engine room, and on several occasions he attracted their attention by certain ingenious devices in the matter of repairing the machinery. In mathematics he had taken prizes long before he became a convict. For good behavior as a prisoner he had many privileges, and was allowed to have a light in his cell long after hours.

"One day Bassett saw a means of escape from the engine room which he had not noticed before, though he had worked there regularly since his imprisonment three years before. It involved possible freedom and probable death. It also involved a very nice mathematical calculation, on the accuracy of which life depended. It was after the conception of his plan that his keepers noticed that he was burning the midnight oil and laying down innumerable figures. The guards did not know it, but the prisoner was calculating just when the broad belt that ran the machinery would stop after the power had been turned off. He had noticed that in the evening when the men were ready to leave the engine room the machinery was stopped. He had also noticed that the driving belt of the engine passed over its upper wheel near a window high above the reach of any one. Then he had learned that from the window one could gain a roof from which he might reach the top of the wall and thence down outside. One day it occurred to him to ride on the belt to the window and escape.

"To do this he must mount the belt at a certain moment—that is, on a point that would stop at the window. He could see the lacings in the belt as it moved—greatly blurred, of course—and for days, weeks, months, counted revolutions of the belt, and at night in his cell made calculations. At last he fixed a point where he could jump on the belt which would stop at the window.

"One evening in winter when the days were short the convicts were lined up ready to march away. Suddenly Bassett sprang upon the belt and, clutching each edge with a hand was carried to the window. So startled was every one that no one took in his intention till he reached the window, the belt stopped, he sprang off and through the opening and was gone.

"Nothing was heard again of Bassett. So determined was he in his object from the moment of his imprisonment that he had arranged with his wife to go to a foreign country, change her name and lose herself to all save him. If she wrote nothing he was to know that she was at the rendezvous. She waited two and a half years for him without having heard a word from him or writing a word to him. Consequently when he escaped it was impossible to track him by his wife. One day he appeared before her and their children in a little town in Central America. There, neither of them known to those about them, parents and children were united in one embrace.

"Bassett at once found employment in the mechanical department of the great canal—of course under an assumed name—and it was not long before he worked himself up to one of the principal positions in that department. Long afterward he saw in a newspaper the confession of the man who had committed the murder for which he was convicted, but he considered his former self blotted from the world and never reappeared among his friends to receive their sympathy at the great legal blunder and a pardon from the governor.

"The secret of Bassett's success was that he realized he must have a purpose and rose through his desperate condition to his object. He also preferred to die rather than remain separated from his wife and children, with the loss of his liberty. The moment of supreme happiness of his life was when, having sprung on the belt, he saw it stop in accordance with his calculations. He felt all the exhilaration—

"What? How do I know how he felt? Well, I'm Bassett."

NORTH CAROLINA AT EXPOSITION

Jamestown Commissioners Gratified That Our State Will Have Attractive Building On Grounds—Of Colonial Design.

(Raleigh News and Observer.)

Norfolk, Va., Oct. 20.—An official of the Jamestown Exposition Company has received a letter from a member of the Commissioners for North Carolina stating that the Old North State will be handsomely represented in the way of a building. Several of those most deeply interested in the exposition are gratified at the decision reached by the North Carolinians to construct a building of colonial design. The plans as described in the letter, are of a beautiful colonial residence with large porches around three sides and with three entrances. There will be a spacious hall in the centre of the building and this will be one of the most attractive gathering places for North Carolina visitors at the exposition. The second story will have colonial style balconies and will be arranged on a smaller scale, but somewhat similar to the State capitol building at Raleigh, giving the opportunity to those above to look down on the gathering in the hall below.

The plan as outlined is said to be one of the most attractive State buildings of which the Jamestown officials have yet been advised. It will be easily sold afterwards as the location is most desirable and the building is, of such architecture as will make it very desirable as a club house or handsome home.

No definite statement was made as to the time of breaking dirt for the building which will, however, be ready next April, but the officials here are advised that bids will be asked for at an early date and that North Carolina contractors will be given first opportunity.

WORK WEAKENS THE KIDNEYS.

Doan's Kidney Pills Have Done Great Service for People Who Work in Wilmington.

Most Wilmington people work every day in some strained, unnatural position—bending constantly over a desk—riding on jolting wagons or cars—doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kidney Pills cure sick kidneys, put new strength in bad backs. Wilmington cures prove it.

R. F. Rowan, clerk with L. W. Davis' Clothing house, residing on Castle street, between Sixth and Seventh, says: "I strained myself lifting a heavy box, and suffered great pain across my back for a long time. I used plasters and linements, but they did me no good. I could hardly stand up straight, my back was so weak. Seeing Doan's Kidney Pills advertised in our newspapers I went to Bellamy's drug store and got a box. I felt better the next day and continued using them according to directions and my back regained its old strength. I was simply surprised at the result. I will gladly recommend Doan's Kidney Pills every time for backache."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's— and take no other.

A Badly Burned Girl

or boy, man or woman, is quickly out of pain if Bucklen's Arnica Salve is applied promptly. G. J. Welch, of Tekonsha, Mich., says: "I use it in my family for cuts: "I use it in my injuries, and find it perfect." Quickest Pile cure known. Best healing salve made. 25c at all druggists. **

There's no use getting mad if that for sale sign you stuck on the front of your vacant house has not brought you a tenant or purchaser. Your sign has been read and reread by practically the same people, who pass by it every day and who are too intent on other things to stop and look over the property. Now, if you would advertise in the Business Locals of the Morning Star it would come before the eyes of all the people looking for real estate. This is because they are accustomed to have the Morning Star tell them what property in Wilmington may be had.

Danger from the Plague.

There's growing danger from the plague of Coughs and Colds that are so prevalent, unless you take Dr. King's New Discovery for Consumption, Coughs and Colds. Mrs. Geo Walls, of Forest City, Me., writes: 'It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them." It prevents Pneumonia, cures LaGrippe, gives wonderful relief in Asthma and Hay Fever, and makes weak lungs strong enough to ward off Consumption, Coughs, and Colds. 50c and $1.00. Guaranteed by all druggists. Trial bottle free.

BIG BLIZZARD SAVES INDIANS

Terrific Snow Storm in Western Nebraska Prevents Cavalry from Reaching Ute Band Which is Raiding in Wyoming.

(Omaha Special, 20th, to New York Herald.)

The earliest blizzard ever known in western Nebraska saved the big band of regenade Ute Indians in Wyoming from the United States soldiers today.

The Burlington Railroad, over which the troops must travel from Fort Robinson, is completely blockaded and the troop trains are all at the fort, unable to move eastward, instead of having already reached the nearest railroad point to the Indians.

It was expected that the cavalry would reach Gillette, Wyo., late this afternoon and by an all night's ride would be at the Indian camp early tomorrow morning. Instead, the prospects now are that the trains will not leave Fort Robinson until midnight. The order to the troops was delayed ten hours to-day because the telegraph wires were all down. The order was finally gotten across the break in the wires by a special locomotive.

Reports from Sheridan, Wyo., near the Indian camp, are that the Utes went toward Montana. They are following the old Sitting Bull trail toward Canada, but it is unknown how far they expect to go. This trails leads between the mountains and takes the route of Chinook winds. It is usually clear of snow when all else is frozen up.

General Gatchell, commander of the Wyoming militia, is in Sheridan, near where the Utes must pass in their flight.

He is watching the situation and while he has not yet ordered out the State troops, he will do so if the Utes get too close to Sheridan for comfort.

Blood Poisoning

results from chronic constipation which is quickly cured by Dr. King's New Life Pills. They remove all poisonous germs from the system and infuse new life and vigor, cure sour stomach, nausea, headache, dizziness and colic, without griping or discomfort. 25c. Guaranteed by all druggists.

ROCK CLIFF LITHIA SPRINGS WATER.

READ WHAT ONE OF THE MOST NOTED CITIZENS OF SOUTH CAROLINA HAS TO SAY OF THE F AMOUS ROCK CLIFF SPRINGS WATER.

Spartanburg, S. C., July 24.

To Rock Cliff Lithia Springs Co.:

Gentlemen:—This will certify that I was severely afflicted with a serious case of erysipelas, that confined me to my bed for about six months or more, with daily attendance of my physician, and which eventually settled in my left leg and became so severe that a consultation of three physicians was held and the decision reached that the lower part of my leg would have to be amputated to prevent the disease extending to the upper part of my leg and body. I declined the operation and was advised to try Rock Cliff Lithia Springs Water. I engaged board near the spring and was advised to bathe my leg in the water, at the same time drinking freely.

This application soon soothed the pain, and for the first time in months previous I slept for about two hours. After a week's treatment, without any medicine or physician's help, I walked to the spring on crutches. I continued the treatment daily, and within two weeks was able to walk to the spring without crutches and in four weeks was able to walk home, a distance of 1½ miles, and resume my official business.

I was permanently cured by the use of the water, and take great pleasure in giving you this testimonial to the efficiency of the Rock Cliff Spring Water in the treatment of erysipelas.

POPULAR PRICES THIS WEEK.

Mr. Robert Mansfield and Company at Academy—Two Matinees.

Mr. Robert Mansfield and his splendid company will open the first popular price engagement of the season to-night at the Academy. The engagement will be for the remainder of the week, with matinees to-morrow and Saturday, and it will, no doubt, prove of very popular nature. The bill to-night will be the powerful drama, "The Lion and the Lamb." Between acts splendid specialties will be introduced; in fact, the company will present as clever a line of specialties as ever seen on the Academy stage at one, two, three prices—10, 20 and 30 cents. These prices will prevail all week.

The company is said to be a fine one, having received plenty of flattering press notices, and its repertoire consists of all new bills and these, too, upon which there is royalty.

To-morrow afternoon the first matinee of the engagement will be given, being the usual mid-week matinee.

LOCAL DOTS.

—The Fall drills of the W. L. I. will be resumed to-night and a full attendance of members is expected.

—Mr. Woodus Kellum received word from Onslow yesterday that his brother who was cut last week by negroes near Jacksonville was not doing so well. He hopes for a more encouraging report to-day.

—Ammie Carter, colored, charged with non-support of his child, was bound over to the higher court by Justice Furlong yesterday and went to jail in default of bond. He has lately completed a term on the roads for non-support of his wife.

—Mr. and Mrs. Jacob Haas, of East Wilmington, have the sympathy of friends in the death of their infant child, nine months old, which occurred yesterday. The funeral will be conducted at 11 o'clock to-day and the interment will be in Bellevue cemetery.

—Mr. and Mrs. Allen, who live at Cottage 52, Delgado, suffered the loss of their infant son, Russell Lee, aged 13 months on Sunday. The funeral was conducted yesterday and the remains were laid to rest in Bellevue cemetery.

—The steamer Tar Heel, of the Wilmington and Fayetteville line, is laid up at her wharf here for a day or two, having broken her crank shaft on the last trip down. She will repair and proceed as soon as possible The steamers C. W. Lyon and City of Fayetteville cleared last night for the return to Fayetteville.

—The steamer Sanders, of the Wilmington, Southport and Little River Transportation Company, which is now on the schedule of the Compton, arrived Sunday night from Little River, S. C. Capt. Daniels reported the storm quite severe on the coast Saturday, but the Sanders rode it out very well in the harbor at Little River.

—Delegates who have been here attending the conference of the Second Advent Church in Eastern North Carolina returned yesterday to their homes. The conference this year was one of the best yet held. Encouraging reports were heard from all over the section. The business of the conference was so extended that it was late Saturday night before the work could be completed.

—James L. McIntire, a well known colored man who received painful injuries at the Cape Fear lumber mill last Wednesday morning, was removed from the hospital to his home, No. 1116 North Fifth street, yesterday. He was struck by a board from a rip saw and quite painfully hurt. He has been employed for 12 years as a grader and rip machine man at the mill and is one of Wilmington's best colored citizens.

Double trading stamps all this week at Pologt's on all cash sales. **

POLITICAL ISSUES

Continued from page one.

prosperity, yet the very next year cotton went to four cents a pound, corn to 28 cents a bushel and hay to $6 a ton. It was a fact of history that the Republicans had been in power upon every single occasion when there had been a panic.

The iniquities of the tariff both per se and as a genesis of the trusts were brought out to striking advantage by Mr. Craig. The inequalities of the Dingley bill were shown in that no one single staple product of the Great South is protected by this incubus of Republican government. Products of the North found ready protection but the cotton, corn and wheat of the South must go into the open markets of the world. This old tariff was likened to a great, lean, long, lank cow, standing across the country from New England to North Carolina, the teats being liberally milked by the millionaires North while the ravenous beast had her head in the corn and hay fields of the South. He was either in favor of turning the cow around for a while or at least killing that end of her that is in our own and our neighbor's corn fields.

A high tribute was paid to the American citizen and his genius and to this was attributed our National prosperity rather than to the golden image which the Republican leaders would have the people to fall down and worship.

Passing on Mr. Craig paid a beautiful tribute to Bryan as the greatest Democrat since Jefferson. He did not agree with his railroad ownership propaganda, but above all he was a man of the people and for the people. Concluding an eloquent tribute to the Nebraskan and pausing for a moment, Mr. Craig hesitated further and deplored that the name of the man whom he had eulogized had not been applauded by a New Hanover audience. It was clearly not a Bryan audience that heard the most eloquent tribute of the distingnished visitor from the West.

Passing from National issues Mr. Craig discussed with gloves off the issues in this State. A vivid picture of reconstruction was drawn and the history of the Republican party was traced from those dark days. He denounced Butler and Russell for their connection with the Dakota bond deal and defended the administration against the charges of extravagance that are being made by Republican orators in North Carolina.

Mr. Craig was given the closest attetnion by his audience and was frequently applauded. At the conclusion of his speech many prominent Democrats in the hall gathered about him to extend their thanks to him for his splendid address and to assure him of their pleasure at his coming.

After the speaking Mr. Craig with County Chairman William J. Bellamy, Hon. Jno. D. Bellamy, Mr. Rountree, Mr. J. O. Carr and others were members of a box party at the theatre where George Ade's splendid character play "The County Chairman," was given an excellent production.

Mr. Craig spoke to a large audience yesterday at Burgaw and a report from there is to the effect that he made a fine impression. On the early train this morning he goes to Whiteville where he will speak today, continuing his journey to Rowland, Robeson county, and speaking there to-night. The following days he goes to Pembroke and then on up through the State speaking each day and some time twice a day until after the election.

SHOOT NEXT SATURDAY.

World's Champions Coming for Exhibition at Wilmington.

A shooting exhibition with rifle and shotgun will be given by the Winchester squad of world's champion shots at the grounds of the Wilmington Gun Club, near Delgado, Saturday afternoon at 1 o'clock. No shooting event of such magnitude has ever been held in this section. Everybody is invited, whether a shooter or not. For those who shoot, a liberal programme of open events will be arranged.

The party is composed of the following:

Ad. Topperwein, the peerless rifle shot, who has broken the world's record eleven times.

J. M. Hawkins, the unparrellelel shotgun expert, who has broken 100 straight targets 44 times and holds the world's record of 128 straight from the 20-yard mark.

W. R. Crosby, the only man that ever made the phenomenal score of 419 straight targets.

John S. Boa, the celebrated shotgun and rifle expert.

John R. Taylor, who holds the international live-bird championship trophy, and recently made a score of 682 out of 700 shots at targets. Mr. Taylor attended the recent Inter-State Shoot here and was high gun for professionals in several events.

Mrs. Topperwein, the world's champion lady shot, with both shotgun and rifle.

—Mr. and Mrs. Homer L. Lyon, of Whiteville, were guests at The Orton Sunday.

PERSONAL PARAGRAPHS.

—Mr. Howard C. Curtis, of the Southport Herald, was in the city yesterday, returning from a business trip to Tarboro.

—Miss Edith Taylor, of Wake Forest, who has been a guest of her brother, Mr. Chas. E. Taylor, in this city, returned home yesterday.

—Mr. and Mrs. W. E. Worth returned to the city yesterday morning from Raleigh, N. C., where they attended the State Fair.

—Mr. R. P. Tatum, of Ruskin, Bladen county, was among yesterday's arrivals in the city.

—Mrs. C. W. Schleif and daughter, Miss Coralie Coghill, of Washington, D. C., are guests at the home of Mr. E. C. Yarbrough, in this city.

—Miss Georgia Ray MacMillan, the gifted elocutionist, was a guest in the city Sunday of Miss Covington. She left yesterday for Goldsboro to fill an engagement in that city.

—Miss Lizzie Grant, who is in school at Salemburg, N. C., is in the city to spend a day or two with her parents, Mr. and Mrs. Oscar Grant.

—Rev. R. W. Hogue and Mr. William N. Harriss left yesterday afternoon for Asheville, N. C., where they go to attend the State meeting of the Brotherhood of St. James.

—Miss Sue Anderson, who has been the attractive guest of Miss Thurber Gore, left Sunday afternoon, returning to her home at Ocala, Fla. Miss Anderson was accompanied home by Miss Gore who will be her guest during the Winter.

—Rev. J. M. Wells, D. D., Rev. A. D. McClue, D. D., Rev. J. S. Crowley and Mr. C. W. Worth are among the Wilmington Presbyterians in attendance upon the North Carolina Synod at Statesville N. C., this week.

—Mr. Julian R. Clements, the popular young hotel clerk, lately with the Yarborough in Raleigh, spent Sunday in the city and left yesterday afternoon for Augusta, Ga., where he has a position with the Albion, of that city. His many friends here were delighted to have him with them for the day.

—Mr. William H. Adams, a prominent member of the Board of Aldermen of Richmond, Va., and who conducts an extensive bookbindery there, is a visitor to the city and called at the Star office yesterday. Mr. Adams was a class-mate of Mr. J. T. Slaughter, foreman of the Star, at Richmond College, and the "old chums" had a good time last night.

COUNTY CHAIRMAN BIG SUCCESS.

George Ade's Big Hit Well Received by Wilmington Audience.

George Ade's great character play "The County Chairman," presented by Manager S. A. Schloss, of Wilmington, with Theodore Babcock in the title role, was witnessed by a large and well pleased theatre audience in Wilmington last night. The characters are are all true to life wherever that life may happen to be in a rural community and the parts from the chairman himself to the "spear bearers," so to speak, were well taken. The company is especially strong and the play is strong—a happy combination that gave great pleasure to the audience last night. It may be said truthfully to have been one of the very best offerings at the theatre this season.

Among the favorites in the cast were Thos. G. Grady as "Sassafras," a touch of color; Mr. Francis Yale as Wheeler, the hero of the satire; Claud Boyer, as Rigby; Miss Gautier, as Lucy Rigby; Charles Burke, as the "oldest inhabitant; the dapper young man as the Chicago drummer and "the village belle," whose names on the programme are just now not recalled.

SALVATION ARMY NOTES.

Adjutant Wiggins' Farewell—Meetings Wednesday and Thursday.

Adjutant and Mrs. Yates, the officers in charge of the local corps of the Salvation Army, wish to announce that Adjutant G. N. Wiggins, who for the past eight months has been engaged by the Seamen's Friend Society as superintendent of the Seamen's Home in this city, but who resigned the early part of this month, as already announced, to re-enter the work of the Army in Bradford, Pa., will conduct a farewell service in the Salvation Army Hall, the Old Court House, on Princess street, to-night at 8 o'clock. The public is invited to this meeting, which will be of a very interesting character. Public meetings will also be held on Wednesday night conducted by Sergt., Major R. Sandford and on Thursday night by Secretary A. Fryer. All are cordially invited to attend these services.

To Increase Capital Stock.

A special meeting of the stockholders of the Murchison National Bank will be held this morning at 11 o'clock for the purpose of acting upon the recommendation of the Board of Directors that the capital stock be increased from $300,000 to $500,000. It is hoped to have as large an attendance of stockholders as possible.

NEGRO KILLED SUNDAY MORNING

Mangled Remains of Frank Mumford Found on S. A. L. Yard.

The mangled remains of Frank Mumford, colored, 48 years old, a frequenter of the police court, were found early Sunday morning on the Seaboard Air Line yards in this city, near the water tank. The presumption is that Mumford was drunk Saturday night as usual and lay down on the road and went to sleep, a train coming along and running over him. The body was almost intact but the mans' head was cut off with a part of the shoulders and one arm had been mashed off. Dr. Bell, the coroner, viewed the remains and gave permission for interment in Pine Forest cemetery.

Real Estate Transfers.

By deeds filed for record yesterday, the following real estate transfers were made: W. M. Cumming and wife to Jos. S. Lane and wife, for $225, property on west side of Eleventh, 166 feet south of Wooster street, 49x165 feet size. Jos. T. Foy and wife, of Scott's Hill, to J. F. Sellars, for $100 and other considerations, property on west side of Eighth, 132 feet north of Campbell street. 33x165 feet in size. Sam Bear, Jr., to J. O. Powers, for $100 and other considerations, property on west side of Fourth, 132 feet north of Dawson street, 66x132 feet in size. Thos. R. Mask and wife and others to Bradley Loftin, for $100, property on east side of Eleventh street, 99 feet south of Queen, 33x165 feet in size.

Mrs. Robert Whiteley

Mr. Robert Whiteley, of Pittsburg, Pa., writes: "My wife was subject to chronic stomach trouble and terrible nervousness; she was thin, and had a worn out look. Doctors, after great expense, all failed to help her. At last she tried Vinol, and soon the change in her condition seemed almost miraculous. She continued its use, and today she is in perfect health and has gained 36 pounds—her friends hardly know her so great is the change. To Vinol we give all the praise, and everywhere I recommend your Vinol, as I have more faith in it than I have in doctors or any other medicine."

Our local druggist, Robert R. Bellamy, says: "Vinol is successfuly in cases like this because it contains in a concentrated form all of the curative properties contained in cod liver oil, the useless oil eliminated, and tonic iron added, and it is the greatest strength creator known to medicine. Vinol tones up the tired, weakened nerves of the stomach; it purifies and enriches the blood and strengthens every organ in the body. Try Vinol on our guarantee." Robert R. Bellamy, Druggist.

Note—While we are sole agents for Vinol in Wilmington, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.

"Wilson Heaters"

(Only Highest Grade Materials Used.

The Wilson Heater will produce more heat from a unit of fuel, and keep your home at a more even temperature, with little or no trouble, and fewer ashes than any other heater made.

There is no Noxious Gas, Offensive Smoke or Cold Floor Draft where the Wilson Coal Heater is used.

Holds fire 36 hours or longer. The combustation is perfect—the heat does not go up the chimney. Burns every particle of the coal; does not make clinkers and leaves very little ash. Other stoves look much like the Wilson, but—that's all. None of them work like the Wilson and none are so good.

SPIRITS TURPENTINE

At Greenville on Saturday, two colored girls entered the residence of Mr. W. F. Turnage and stole great quantities of the wearing apparel of Mrs. Furnage.

—On last Friday the three-year-old child of Mr. and Mrs. Craig, who live near Blowing Rock, was burned to death. Its mother left the house for a short while and while she was gone the little child's clothing caught fire, and, young as it was, it escaped from the house as rapidly as possible, falling in a ditch and when found by the mother a few minutes later the spark of life had fled.

—The town commissioners of Tarboro and the executive committee of the Good Government Club met Thursday night in joint session and after agreeing on several resolutions looking to the further safeguarding of person and property in that community proceeded to create outright a new office whose duties shall be to apprehend all vagrants. Mr. R. B. Hyatt was unanimously elected to the office.

Caswell Democrat: Judge Adams was in his glory while attending a negro convention without a white man present, and had himself well groomed and confidentially styled by the lips of both sexes of the colored race "As Jesus." It is ingratitude of unforgiveness when the State chairman knows so well that the negro men of Caswell are the cause of his now swaying the position he now holds.

—Statesville Landmark: Ex-Congressman Linney, who was silent in the ongresional contest two years ago, is making some speehes in the district this year. Mr. Linney doesn't love Blackburn any more now, probably, than he did two years ago, but his son, Mr. F. A. Linney, is a candidate for solicitor and secured the nomination by Mr. Blackburn's help. Blood is thicker than water and Mr. Linney has therefore taken the stump.

—Smithfield Herald: Within the past eight years Johnston county has accummulated a surplus of over $19,000. Within these eight years three durable steel bridges have been built, fire-proof vaults for keeping the records of the register of deeds and the clerk of the Superior Court's offices—and this has all been done without increasing the tax rate one cent—in fact the tax rate has been reduced. And don't forget that this is what Democratic rule has done for the people.

Greenville Reflector: It was a thunder clap among the Republicans here Saturday when the message from Greenville was read announcing the withdrawal of Col. I. A. Sugg as an aspirant for solicitor. It was also a sky scraper when the people were told it was without the consent or knowledge that the name of Elder Fred McLawhorn was placed in the Radical list, that he was a Democrat and proposed in the coming election to vote the entire Democratic ticket. It was a hacker.

Asheville special, Oct. 20: Former Governor Charles B. Aycock preached the gospel of Democracy to an Asheville audience Thursrday night in language plain and simple. He pleaded the cause of education with matchless eloquence and bespoke for the future of North Carolina first place in the union of States. Mr. Aycock has been campaigning in Western North Carolina for the past week or more. He has stirred the people of this section to a high pitch of enthusiasm by his splendid oratory and with facts and figures has driven the enemy to cover.

—Thirty harness horses that have been following the southern circuit are already entered for the races at the Cumberland fair which will be in in progress now at Fayetteville. About twenty more are expected to start. This fair which begins Wednesday and runs until Saturday, will be the biggest in the history of the association. It is now under a new and younger management. Horsemen and fakirs are already on hand in great numbers. There are strained relations between some of the former, insuring fast and furious racing. New stables were added the past week to accommodate the horses. Fayetteville gets the strings that were at Raleigh and Charlotte week beside other entries.

John H. Hodges, the wife murderer who is now in jail under sentence of death, at Durham, is to have his case argured before the Supreme court on November 27, at the end of the calendar for the Thirteenth district. Hodges killed his wife in a most brutal and blood-thirsty manner on the night of February 24. He and his wife had parted and there were pending in the courts divorce proceedings. Hodges went to her home late at night, dragged her from a bed and shot her to death. Hodges admitted the crime and said that he was glad of her death. He was tried at the May term of court, found guilty and sentenced to be hanged on June 29. The appeal to the Supreme court on technicalities acted as a stay of execution.

—In a political speech at Spencer Thursday night Spencer Blackburn, Republican nominee for Congress in the Eighth district, stated as his reason for refusing to meet R. H. Hackett, his Democratic opponent, in a joint canvass of the district that he did not wish to appear in joint debate except against a decent man. He said, let the Democrats put up a decent candidate and see whether or not he will meet him. At the close of his address Mr. Jesse P. Crowell, a member of the Republican Executive Committe of Rowan, and a leading business man in Spencer, refused to shake hands with Mr. Blackburn on the ground that he had not himself acted decently.

—The residence of Hon. W. L. Williams, at Linden, near Fayetteville, was destroyed by fire on Saturday. Mr. Williams was State Senator from Cumberland county in 1899.

Lenoir Topic: Some of our Republican friends seem to be pretty "hard up for argument against the county Democratic ticket. They are even making the charge that Mr. J. M. Bernhardt wants to be commissioner in order that he may build roads in his own interest. Mr. Bernhardt is a road builder, it is true, but he builds them with his own cash. During the past year he has spent $1,500 on the public roads of the county, and is at present building a section of road not to the interest of himself at all. We might also say that Mr. Bernhardt has started more industries and given more men employement than any other man in the county, and is at present building the county. He also helps worthy men by giving them employment during the summer and paying their expenses in school during the winter. Selfishness is one charge the Radicals will not openly bring against Mr. Bernhardt. This work is done behind the curtain. Let them try some other scheme.

—Mount Olive orrespondence, Oct. 20: Hon. Locke Craig, of Asheville, N. C., one of the State's leaders of Democracy, spoke to a large audience in the opera house here last evening. Despite the fact that it had rained all day, large crowds from all over the country assembled to hear this great and eloquent speaker, and they were not disappointed. He discussed the political issues, both national and State, with all of his old-time vigor and eloquence, and his effort will do lasting good in reviving the smouldering fires of Democracy in the hearts of the few so-called "independent" Democrats here, and in fanning into a greater flame the fires that have ever burned fierely and brightly in the hearts of the faithful ones. What he did for the Rpublicans—well, sorrow compels us to pause.

Asheville Citizen: Ex-Governor Charles B. Aycock made a political speech last night to an audience of men and women which despite the dark and rainy night and the Dixon play at the opera house, filled the court room. The attendance under these circumstances and at a time of almost no interest in politics, shows the hold of Mr. Aycock on Asheville and the demonstration of eager interest at all times during his speech of an hour and three quarters did much to bear out the claims of zealous supporters that Mr. Aycock is the greatest political speaker of North Carolina in a generation. Strong in personality, forceful in speech, eloquent, moving his audience to tears or making them laugh with his kindly humor and always with a saving grace of kindness in his forceful attack on Radicalism, he shows a reserve of power which makes him a mighty support for any cause he advocates. If there were weak Democrats when he began his speech last night, there were none when he closed.

—Maxton correspondence Oct. 20: Joe Ross, who was seriously wounded last Summer by a pistol shot while on an excursion train operated by the Seaboard Railway Company, has brought suit against it for $15,000. He was a passenger on one of the cars of the excursion, and was shot by a wild, drunken negro, of whose condition the conductor of the train had positive notice. The bullet broke his right jaw, pierced his tongue, struck his right cheek bone and then ranged upward, lodged near his brain. It was not removed, as his physician was of the opinion that death would result from the operation. While Ross is able to be about, the most serious apprehension is entertained by his physician on account of the position of the bullet. Mr. J. C. Wilkes, of this county, has brought suit against the Seaboard Air Line Railway Company for $10,000 on account of an assault committed upon him while he was a passenger of the company. He was violently cursed, abused and attacked with a crow-bar by a drunken man while at Vass, N. C., waiting for a train that was about twenty minutes late. The agent at Vass offered him no protection, but stood by and seemed to be amused at the insult offered.

—Kinston Free Press, Saturday, Oct. 20: Richard Boykin, colored, about 20 years old, who came here from Raleigh to work on the construction force of Hines Bros.' Kinston-Snow Hill Railroad, was killed at the camp on the Briery late Friday evening by the accidental discharge of an old pistol he was trying to snatch from the pocket of Jim Becton, another colored employe. The circumstances were such as to arouse suspicion of foul play and Sheriff Nunn notified Coroner Green, who came down from LaGrange this morning and held an inquest over the body, with the result that Becton and the others were exonerated, it appearing from the testimony that the shooting was accidental, and for which, Boykin was wholly responsible. According to the evidence Boykin, Becton and several others were in one of the shanties together "carryin' on" when Boykin, in fun, attempted to snath an old pistol from Becton's hip poket. The pistol was a self-acting gun with the guard to the trigger broken off, and it was stuck in Becton's overalls pocket butt down. When Boykin pulled the gun up the trigger caught and caused the pistol to fire. The ball penetrated Boykin's forehead and entered the brain, causing almost instant death.

By Special Request

Madame Dearth, expert corsetiere of New York, will remain at our store a few days longer to fulfill engagements already made, and to welcome all others who wish to consult her.

A FEW LaGRECQUE STYLES

243

243

This LaGrecque Belt Model strongly appeals to large women because it cures too prominent abdomen and hips naturally and permanently. Dresses fitted over it keep their original style and fit to the end.

The straight front, and full cut top encourage deep, natural breathing, conform the bust to shapely lines and give the clear, bright complexion that comes through an erect poise and uncramped figure. This is a corset that can be worn with ease and benefit every hour of the day.

205

205

For slender and medium figures this new model is without a peer. It will fit better, give more style and shapeller rounded lines than any corset you have ever worn. Has short hip, well defined, clean cut waist line and front lines complying with the demand for medium high bust. The unique construction of latticed ribbons, over a fine sheer body makes it light and comfortable. Pliant to every movement of the wearer, yet more durable than many heavily built corsets. A beautiful chic model born of much study and experience.

2310

2310

Your new dress if fitted over this LaGrecque Lattice Ribbon Corset will show a stylish personality entirely missing in the stereotyped lines of most corsets.

LaGrecque Lattice Ribbon Model for medium and slender figures is the lightest weight yet durable corset made. A body of fine sheer material, latticed over with ribbons that prevent splitting or stretching, allows complete freedom in every movement—yet gives due firmness for support. Cool, light and flexible.

256

256

Long waist, full length bust for full or stout figures.

The above represents but a few of the many styles of LaGrecque corsets. A fit guaranteed for every figure. Easily the best corset Wilmington ever had Don't fail to be fitted.

Polyeletos and Greek Art.

The mantle of Phidias descended on Polycletos, the originator of the Argive school of art. Inferior to his great precursor in colossal sublimity and magnificence, he equaled him in precision and surpassed him in beauty of face and grace of figure, so that the critics have told us that Phidias portrayed divinity and Polycletos humanity. If we may adduce a parallel from dramatic literature we will term Phidias the Æschylus and Polycletos the Sophocles of statuary, and as the "father of tragedy" called his dramas "fragments from the great Homeric banquet" so the Attic sculptor said that he derived his conceptions of the majesty of the father of gods and men from the strains of the father of song.

His statue of a boy bearing a lance has been judged by critics a perfect model of youthful grace and proportions and has been called the "Canon," since from it artists have drawn rules of art, so that, in the words of Pliny, "he is held to be the only man who has embodied art itself in a work of art." As may be supposed, he was successful in the nude and in portraitures of boys and youths. The Argive school was prolific in sculptors of ability, principally disciples and imitators of Polycletos, but we can hardly rank among them Scopas save indirectly.—London Spectator.

How Monkeys Sleep.

"Look at them," said the zoo keeper softly. "A pretty sight, isn't it?"

The rays of the lantern did not awaken the multitude of monkeys asleep in the great cage. They lay in a hundred attitudes. Here a slumbering mother held her slumbering baby in her arms; there a formidable male lay by himself in a cleared space; a fat monkey in a corner snored.

But not one of these monkeys slept on his back.

"Do you see?" said the keeper. "They lie on their sides, on their stomachs, every which way—but there isn't one a-lying on his back.

"There never is. No monkey ever was found sleeping on his back. Sometimes as I consider their intelligence and their manifold virtues it seems to me that the fact that monkeys never sleep on their backs is the chief difference between them and human beings."

Some Points About Wills.

Do you know that you cannot will away your body, that a clause in your will giving your body after death to any person or institution is not legally binding? Your executors cannot be forced to carry out your wishes, though they may do so through deference to your expressed preferences. It is also important to remember that three witnesses are needed in devising real estate instead of two, as in bequeathing personal property. "When a woman will she will, depend on it," says the proverb. But there are so many sharp turns and short curves in the course of the law that though a woman wills to will what she will, how she will, in nine cases out of ten she cannot make her will so that she wills what she will as she wills to will.—New York Press.

How to Make English Meat Pie.

The veal and ham pie, which is a common English dish, should be better known here. The bone end of a piece of veal is stewed till the meat is tender with an equal amount of smoked ham. Take out the bone, strain the stock and separate the veal and ham pieces. Cut each in strips and lay in alternate layers in a deep baking dish. Season, cover with the clear stock and finish the dish with a flaky crust that will bake quickly. The dish is eaten cold, and when cut like any pie it will be found that the meat is set in a delicious jelly.

Chilly Meeting.

The late Sir Richard Jebb, professor of Greek at Cambridge for many years, had the saving grace of humor.

Two men of his acquaintance had quarreled, writes a lifelong friend in St. James' Budget, then met while skating.

"They could hardly have met on a colder footing," said Jebb when the incident was related to him.

STATE HOSPITAL FOR THE INSANE

New Wing Completed, Providing Immediately Room for 112 More Patients—Still More Room Badly Needed at Raleigh.

(Raleigh News and Observer, Oct 21)

The people of North Carolina will be gratified to know that the new wing to the State Hospital for the Insane at Raleigh has been completed, with the exception of some minor details of inside wood work and painting, and that this annex provides immediately for the care and treatment of 112 patients. Thirteen have been brought here from the institution at Morganton, which will enable that institution to take several patients from the outside. This leaves capacity for the accommodation of 99 new patients in the hospital at Raleigh. Fifty-six patients have been ordered in to the hospital. Fifteen patients who have been ordered in have not yet reported, two out of that number have been reported so far improved as not to need treatment; the others may be looked for any day. The authorities are still ordering in from the files the most meritorius cases, instructing their correspondents or the clerks of the court to send or bring them in

Dr. James McKee superintendent said yesterday that the new annex will very much mitigate the conditions in this district but that the Hospital will still be unable to relieve all, as there will be a number whon eed the advantages of the institution, that can not be accommodated. He is much pleased with the arangement and appointment of the new annex. All who have seen it express themselves as delighted. It is modern in its plan and arrangement and its building meets in a large measure a long-felt want.

The admission of one hundred and twelve new patients into the hospitals will go far towards relieving the situation. The General Assembly, which meets in a few months, will no doubt provide additional cottages and accommodations so that all the indigent insane can be cared for in the State hospitals. The increased revenues, together with the certain large increase in the assessment of property (next year is the quadrennial period for reasssessment), will make it comparatively easy to make all needed provision so that indigent insane persons will not lack for the best care and treatment at the expense of all tax-payers.

NORTH CAROLINA 'VARSITY GROWING

New Chemical Laboratory Completed Making One of Best Departments in South—Several Courses Added—Carnegie's $50,000

(Raleigh News and Observer.)

Chapel Hill, N. C., Oct. 20.—The new chemical laboratory, which was built with the funds appropriated by the State, was completed during the Summer. The building is equipped with new and modern paraphernalia and is occupied by the various classes in chemistry.

The completion and equipment of this building means much to the department of chemistry. Heretofore the work has been carried on under rather in auspicious circumstances, and several courses had to be omitted on account of the cramped and incomplete condition of the building. The work has now expanded to its proper bounds; several courses have been added; and under the capable supervision of Drs. Kerby, Wheeler, Mills, Davis and a corps of able assistants the instruction has been enlarged and improved upon until it is the equal if not the superior of any other in the South.

The old chemical building, better known as Pearson Hall, has been thoroughly renovated and equipped for the medical department. It is now divided into first-class laboratories for pathology, bacteriology, and physiology, which will enable the department to do better and more thorough work in the future.

In the new East Building the Biological, Botanical laboratories have been enlarged and provided with new and better equipment.

All the funds necessary to secure the Carnegie endownment of $50,000 have been raised, and that amount placed subject to the University, draft. Work upon the new building will begin at once. The plans have already been approved by the building committee, and the bids will be opened on October 25th. It is the desire of the committee to push the work forward in such manner as to have the building opened for use at the beginning of the session of 1907'08. This makes an addition of $100,000 to the University property.

The University has been the recipient of a number of gifts and scholarships during the past year. This greatly increases the ability of the institution to extend a helping hand to the poor, but deserving boys of North Carolina.

Five additional professors, besides instructors and assistants, have been provided for the current session, thus increasing the power and efficiency of the faculty.

The S. A. E. fraternity will enlarge their chapter house in the near future. Material has already been secured and placed on the grounds for the work. It is their intention to have a dormitory building in connection with the regular hall. The building when completed will add much to the beauty of that part of the campus.

A Young Mother at 70.

"My mother has suddenly been made young at 70. Twenty years of intense suffering from dyspepsia had entirely disabled her until six months ago, when she began taking Electric Bitters, which have completely cured her and restored the strength and activity she had in the prime of life," writes Mrs. W. L. Gilpatrick, of Danforth, Me. Greatest restorative medicine on the globe. Sets Stomach, Liver and Kidneys right, purifies the blood, and cures Malaria, Biliousness and Weaknesses. Wonderful Nerve Tonic. Price 50c. Guaranteed by all druggists.

CLOAK DEPARTMENT AT Geo. O. Gaylord's Store.

We think it is the strongest department of its kind in the city of Wilmington.

We have rain coats full length water proof that we are offering for $2.98.

Cravenette Rain Coats full length and nicely made, in grey and tan, that we are selling at $5.50.

A good $10.000 Rain Coat we are showing at $7.50 and our $12.50 Rain Coats are selling for $8.75— they are beauties.

We have nice Rain Coats, all wool, ranging in prices from $10.00, $12.50, $15.00 and $18.00.

In Ladies' Dress Cloaks we have a great variety of styles to show, and our line of Cloaks is fully worth seeing before you buy.

We also have a nice line of Plaid Cloaks to show, or we can sell you one and have it made to order to fit you.

In Children's and Misses Cloaks, we have them as low as 98c each for children, better for $1.50 and up as high as $4.50 each.

The Bear Skin Cloaks for children, we have in a nice line in white and colors and we sell them from $2.75 to $4.00 each.

We also have the Bear Skin Caps to match, which we sell for 50c up to $2.00 each.

In our Cloak Department we also Mackintoshes for school children and for ladies.

In this department we are showing a strong line of wool knit goods, nascinators, hoods, zephy shawls, sacques and booties for children.

This assortment of wool goods are all new and we think they are very pretty and we have a large lot to select from at all prices.

To see a bargain in Ladies' Cloks, see Gaylord's Tan Beaver Cloaks, worth $8.00 each and in three colors, black, tan and caster—his price $5.75.

A good Melton Cloak, trimmed in fancy buttons, he is offering at $3.69.

Ask to see Gaylord's premium department and have his system of giving premiums explained to you, and he thinks you will become one of his customers if you are not already.

MILLINERY DEPARTMENT.

Remember we trim all hats bought of us free and we have thousands of new styles to select from.

This is the store, ask for a stamp book and get anything you may want in the dry goods line.

CLOTHING DEPARTMENT.

This department is a store to itself and carries an immense line of Men's and Boys' Clothing.

Men's and Boys' underwear of all kinds. Collars, Neck Ties, Gloves.

We sell Regent Gloves for men, which is fire proof. Also the Head Light Overalls, sold under an absolute guarantee or money refunded.

We have all sizes and colors.

Men's and Boys' Sweaters from 50c to $1.25.

A nice line of Engineers' and Firemen's Caps, as well as Dress Caps from 50c to $1.25 each.

A Horsehide gauntlet glove for men, fire and water proof at 50c per pair.

Cravenette Rain Coats for men, strictly all wool, will not fade nor leak water, with a heavy fine lining, altogether a well made coat, which we sell from $8.00 to $12.50 each.

Ourline of Boys' Clothing is correctly made, cut full and large. Every seam is double stitched and our prices are right.

Boys' Clothing from $1.00 to $5.50 a suit.

Do your buying at the Big Department Store on Front Street.

P. S. Examine our stock of Dress Goods and Silks before buying elsewhere.

BEEF CATTLE—Dull at 2 to 3½ per pound.

HIDES—Dry salted, 14 to 15; green 10c per pound.

THE COTTON MARKET.

New York, October 22.—The cotton market had a strong advance at the opening this morning but lost part of the gain during the session with the close steady at a net gain of 16 to 19 points. Sales were estimated at 250,000 bales. The opening was firm at an advance of 11 to 31 points net and the active months generally were 30 to 34 points net higher right after the call on covering by sellers of last week and a renewal of bull support which was encouraged by higher cables than expected and the expectation of bad weather in the Southwest. The initial advance carrying January to 11.22 showed a recovery of about ½ cent from the low point of Saturday morning, and naturally attracted heavy realizing under which the market sagged off to around 11 cents for January. At this level there was active support from large interests, and following the publication of the western belt forecast prices rallied. This gain was not held owing to heavier realizing in the late trading and January closed at 10,99. Weather reports appeared to be the prime factor and cold rain with freezing temperatures in several sections were predicted for the southwest with settlement also influenced to some extent by reports of heavy snow storms from the North belt and fears that they would work down into the cotton country.

Receipts of cototon at tht ports today were 73,131 bales against 68,601 last week and 46,815 last year. For the week 420,000 bales against 372,277 last weey and 293,863 last year. To-day's receipts at New Orleans 14.396 bales against 8,168 last year, and at Houston 17.674 against 20,461 last year.

Spot cotton quiet 25 points advance middling uplands 11.25; middling, 11.50; sales 444 bales.

CAMPAIGN TIMES IN NEW YORK

Both Hearst and Hughes Conferred Earnestly With Their Leaders Yesterday.

REPUBLICANS GET WARNING

Their Chairman Cautions Them Against Overconfidence — Hearst Says He Will Carry State By 150,000—Tammany for Him.

(By Wire to The Morning Star.)

New York, October 22.—Political activity was renewed with energy to-day by the gubernatorial candidates upon whom thus far has rested the burden of the campaign. Both held informal conferences with leaders among the supporters during the day and to-night appeared before large audiences.

The Independence League hald a meeting at Madison Square Garden where all who could get inside heard William R. Hearst, the League's candidate for governor, and other candidates of the league and Democratic ticket. The Tammany Hall committee which planned to tour the city to-night in automobiles holding many outdoor last moment in deference to the gathering at the Garden.

Charles E. Hughes, the Republican nominee for governor, after a talk with State Chairman Timothy L. Woodruff, this afternoon, left for Kingston where he spoke to-night. Mr. Hughes will be away ten days.

After seeing Mr. Hughes to-day Timothy L. Woodruff sent out a warning to Republican leaders. The State chairman fears over-confidence and urges party workers not to belittle the strength of the opposition.

Charles F. Murphy, leader of Tammany Hall, also was out with a statement to-day. He again declared Tammany's allegiance to the Independence League, as represented in the Democratic State ticket and predicted the election of Mr. Hearst.

The Independence League was a victory, possibly of widespreading consequence, when the board of elections decided that the managers of the League having named a full State ticket, were entitled to say what candidates should be placed under the "scales," the emblem of the league. The action of the board will come before the Supreme Court for review tomorrow. Should the courts sustain the opinion of the board, many Democrats nominated by petition will have no place in the League column on the official ballot. The judiciary nominators to-night opened their campaign on behalf of the LIndependence Judiciary ticket with a large number of meetings.

Mr. Hearst addressed a large meeting held under the auspices of the Independence League to-night in Madison Square Garden.

Mr. Hearst had much to say concerning corporations and something about his opponent on the Republican ticket. He declared that he would come down to the Harlem River with a majority and that all the votes he would get in the city would be 'velvet." He believed, he said, that he would be elected governor by a majority of 150,000.

Mr. Hearst told how he had fought the trusts in the interests of the people. He first fought and killed the "gas and fuel trust," and next tackled the "ice trust" and put the "ice trust mayor" out of office. He then made war on the "beef trust" and the rebating system.

"When the 80 cents gas law was secured and the gas trust refused to obey it," the speaker continued, "we went to court and got an injunction and prevented the shutting off of the gas supply of people. You have been told that I have made corrupt political deals, and I have made no deals at all. I have made no more deals with Murphy than I have with McCarren."

LAWYER GOES TO PENITENTIARY

Captain Boynton, of New York, Sentenced to Term of Six Months.

(By Wire to The Morning Star.)

New York, October 22.—Captain George Boynton pleaded guilty in the United States Circuit Court to the charge of being a party to a plan for counterfeiting silver coinns of Venezuela for the purpose of financing a revolution in that county. He was sentenced to six months in the Kings county penetentiary.

Lewis M. Thompson and T. B. Wilcox, who were associated with Boynton, interposed pleas of guilty of having in their possession dies for the duplication of the coins of a foreign country and were fined $250 and $100 respectively.

When arrested Captain Boynton produced papers to show that he was in New York as the special commissioner of a Venezuelan revolutionary party and that it was his purpose to finance a revolution by making duplicate silver dollars of the same fineness and intrinsic value as those issued by the government, which would be legalized by act of the Junta when the present government of Venezuela was over, thrown.

"I guess I was technically guilty although we never intended to make any money in this country.

ALMOST A RIOT OVER CLANSMAN

Negroes in Philadelphia Warmly Urged Mayor to Prohibit Play Last Night.

Great Crowds of Angry Negroes Gathered on Streets in Front of Theatre and Riot Call Was Sent In.

(By Wire to The Morning Star.)

Philadelphia, Oct. 22.—Under most unusual conditions "Hhe Clansman" was produced here to-night at the Walnut street theatre. The colored clergy of the city had made a formal protest to Mayor Weaver against the production of the play, claiming that "lynchings have been encouraged by the play." The mayor refused to take any action.

About a half hour before the theatre opened Ninth and Walnut streets, where the play house is located, were packed with colored people. Director of Public Safety McKenley, who realizing the danger, had hastened to the scene, and begged the ministers, who seemed to have complete control of the multitude to disperse the mob.

A riot call was sent in and five police patrol wagons brought half a hundred policemen to the theatre. The colored ministers surrounded Director McKenley and demanded that he stop the play. The director delivered a brief speech, asking the crowd to disperse and saying that he would endeavor to have the play discontinued after to-night. This seemed to have a soothing effect on the crowd and it slowly scattered.

Early in the evening a colored man attempted to create a disturbance in the theatre. He was arrested, but the police had considerable difficulty in rescuing him from the crowd in the gallery.

DISCRIMINATION IN FREIGHTS.

Complain With Interstate Commerce Commission Involving Railroads.

(By Wire to The Morning Star.)

Washington, October 22.—A complaint in which the long and short haul question, incidentally, the Standard Oil Company, figure was filed today with the Inter-state Commerce Commission.

The compaint is the Merchants' Traffic Association, of Denver, an organization formed to promote the welfare of Denver and Colorado State points, and the defendants are the Denver and Rio Grande, Colorado Midland, Athison, Topeka and Santa Fe, Chicago, Burlington and Quincy, Chicago and Northwestern, Colorado and Southern, Missouri Pacific, and Union Pacific railroads.

The complaint charges that the defendant lines charge a greater freight rate to Leadville, Glenwood Springs and Grand Junction and to intermediate Colorado points than to Salt Lake, Ogden and other points in Utah, 300 miles further from Chicago than the Colorado points.

It is pointed out in the petition that no such discrimination is practiced in the transportation of oil, the rates to Colorado and Utah points from Chicago being identical because, the petition alleges, the Standard Oil Company by "reason of its greater power and influence, has been able to exact from the said defendant railroads a due observance of the said act of Congress for the regulation of Inter-state Commerce."

The Inter-state Commerce Commission is requested to compel the defendants to give Colorado points a just rate.

SHIP BLOWN UP BY MINE.

Report that 200 Lives Were Lost Near Vladivostok.

(By Cable to The Morning Star.)

St. Petersburg, Oct. 22.—But few details were received here to-day of the blowing up of the wooden coasting steamer Variagin which, as was announced from Vladivostok, struck a floating mine and foundered October 20 with the loss, according to one report of two hundred lives. The vessel was bound from Vladivostok for Rechilza at the head of Ussuri bay about thirty miles from Vladivostok. She struck the mine when a few miles from Rechilza at a point less than two miles from the shore. The whole of the stern of the vessel was blown off and she sank immediately. The number o persons saved or the number drowned are not known. The governor general of Vladivostok has given orders for the immediate suspension of navigation in Kangoose bay, an arm of the Ussuri where Rechilza is located, until the completion of the dragging operations to clear the zone of mines.

More than half a dozen steamers already have been sunk from coming in contact with floating mines on the waters encircling Vladivostok. The disaster to the Variagin reveals the fact that the Russian authorities, during the war, mined the bays about Vladivostok in anticipation of attempts by the Japanese to effect landings at Kangoose bay, and other points.

BLIZZARD'S BLAST OVER THE WEST

Unprecedented Weather from the Rocky Mountains to the Missouri River.

SNOW DRIFTS 9 FEET DEEP

Railroads in Colorado Blocked and Temperature Below Zero in Some Places—White Mantle Six Inches Deep in Minnesota.

(By Wire to The Morning Star.)

Denver, Colo., October 22.—Snow, wind and cold extended over nearly the entire country between the Rocky Mountains and the Missouri river today, causing heavy losses of live stock and of late fruit. Telegraph wires were prostrated and railroad schedules disarranged.

The storm is almost unprecedented for severity at this season of the year, and takes rank, according to the weather bureau, with the snow fall on April 22, and 23, 1885. Up to 6 o'clock this evening about twenty inches of snow had fallen in Denver. Much of this snow melted soon. While the temperature on the plaains has fluctuated from 20 to 30 above zero, it has been much colder at higher altitudes. At Corona the highest point on the new Moffat railroad, two degrees below zero early to-day was reported.

At Emery Gap, on the Colorado Southern railroad ,snow drifted nine feet deep and traffic was tied up today. The rotary snow plows were sent out to open up the road. A Santa Fe train was derailed between Wagon mound and Springer, New Mexico, last night and the road was blocked for several hours. Snow caused the mail coach and two baggage cars to jump the track and they rolled down an embankment. Only one man, the mail clerk, wat hurt, and his inpuries are not severe.

Six Inches of Snow in Minnesota.

Duluth, Minn., October 22.—A blanket of heavy snow, six inches or more, fell last night in northeastern Minnesota, covering the Vermillion and Mesaba ranges and extending as far as Fosston.

SUITS OVER CAROLINA TIMBER.

Parties at Law in Norfolk, Involving $145,000 Deal.

By Wire to The Morning Star.

Norfolk, Va., Oct. 22.—Suits aggregating $23,500 for commissions whereby the Virginia-Carolina Lumber Co., of Spring Hope, N. C., sold to the Montgomery Lumber Company for $135,000 all of its timber land holdings in the counties of Nash and Franklin, North Carolina, were instituted in the Federal court here this afternoon.

The plaintiff in the first instance is A. R. Smith who claims $7,500, including damages, on an agreement to pay him $5,000 of the sale of the Virginia-Carolina Lumber Company's property was brought about on an option given to G. Fred Johnson for a sale of the property at not less than $145,000.

The plaintiff in the second instance is G. Fred Johnston who sues for commission on the sale at ten per cent and damages, claiming to have brought about the sale to the Montgomery Company, through M. B. Tremaine, whom he introduced, and to whom he first offered the property at $175,000, Tremaine refusing it at this figure because, it is alleged, he did not find the class and quantity of timeber the owning compan first claimed was on its land.

FOUR MEN PICKED UP AT SEA.

Say 79 Were Drowned Off House Boat Near Miami.

Mobile, Ala., Oct. 22.—The Mallory Liner Colorado, which arrived in port to-day had as passengers Joseph Melson, Charles Olsen, Charles Anderson, and Otto Brink, who were picked up at sea Saturday morning, 90 miles off Key West. Melson says he saw 79 men drown from a house boat which was wrecked off Long Key, Florida, in last week's storm. The four men who were found by the Colorado's crew, were standing on a craft made out of six logs and were in the water waist deep at the time. Melson said he and the other men were on a house boat at Long Key when the hurricane struck them and blew the boat to sea. It soon went to pieces and out of the 125 people on board, 79 drowned. The other 42 have since been taken into Jacksonville, Fla. The men suffered terrible hardships. The men say that the loss of life was heavier off Long Key than any other point.

The Supreme Court of the United States yesterday refused to assume jurisdiction in the contempt case of Mayor Rose, of Kansas City, Kas. A fine of $1000 was imposed against Rose by the Supreme Court of Kansas for assuming office as mayor after he had been disposed on a charge of failure to enforce the liquor laws of the State. The effect of the court's action will be to leave the sentence of the State court in effect.

GOLD COMING OVER TOO FAST

Secretary Shaw Discontinues Deposits in New York to Drain Europe.

YELLOW METAL ABUNDANT

Importations Exceed Expectations—Plan to Increase National Bank Circulation $18,000,000—Will Accept Other Security.

(By Wire to The Morning Star.)

New York, October 22.—Secretary Shaw authorized the announcement that from and after Tuesday the 23rd deposits to facilitate gold importations will be discontinued. He said in connection with the announcement that importations had exceeded his expectations, and he believed for the present, America had quite its share and he had no disposition to disturb conditions in Europe by a continuation of that method of relief.

Secretary Shaw also announced that he would stimulate national bank circulation to the extent of $18,000,000 by accepting approved securities other than government bonds for deposits already made, the bonds released to be used immediately as a basis of circulation without withdrawal from the treasury. He does not object to the asignment of the bonds to other banks than those now holding them, but to insure their use they must remain in the Treasury, and in addition the bank taking out the circulation must agree to retire the same between the 15th day of Marcr and the 10th day of May, 1907. The banks will be required, when taking out their circulation, to make application for its requirement, and the order or per cent of retirement from month to month will be determined by the Treasury Department.

In this way $18,000,000 of additional circulation can be immediately issued and gradually retired during the Spring and Summer months.

Portner's Hofbrau is thoroughly sterilized in the bottle at the brewery. You may contract typhoid fever from water, but never from beer that is sterilized at the brewery. 'Phone 99.

FEATHER - WEIGHT ARCH SUPPORTERS

Made of German Silver.

This arch supporter is the best remedy for "flat foot" or weak instep, an ailment that is quite prevalent to-day. On account of the peculiar pains from this affliction the people suffering from flat foot or weak instep often get a wrong diagnosis and in many cases the trouble is mistaken for rheumatism.

These supporters are especially helpful to those who are on their feet a great deal. They rest the feet and make walking a pleasure.

An expert to fit them at

SOLOMON'S SHOE STORE
